## Recent Operations

By Paul Rardin

Last week I made a lot of political predictions, and I was right! They caused a great deal of comment. Several fellows were guessing just the opposite of the predictions I made. But, that's o.k. with me. I've missed out on many elections that one man, who couldn't make any difference,

My wife, who is taking our vacation in Georgia, reports that friend chums have been blacked out—peas etc. all go to make up the menu these days in those parts. Sounds good!

I've read more nice things in the newspaper about O. J. S. than the appointment as circuit judge than I've ever read before about any one man. It seems that the appointment has met with the approval of all who know the Stuart man.

John C. Lochner of Clermont, publisher of the Florida newspaper News, was a caller in our office this week. Mr. Lochner's paper is the official organ of the Florida Press Association. He told me that he had received hundreds of newspapers from various sections of the United States during his tour, and that most of them carried favorable comment about the recent National Editorial Association convention in Florida. Mr. Lochner's tour was a sell-out, and much free publicity the state gained through the convention and tour of the state. Hundreds of U. S. newspapers made the trip and all seemed to have been favorably impressed with the welcome they received.

The delinquent tax list for the county is being issued by the Delray Beach News. After the final number of publications, the tax will be held at the court house in West Palm Beach on Monday, July 7.

Well, it's almost time for me to have a little luck and catch one of those big bands to enter one of the four contests being conducted. Maybe I'll be able to slip up on the blind side of 11 pounders.

## Seek Right Of Way On Range Line Road

Action to acquire a 100-foot right of way for improving the Range Line Road from the Homestead cause to the West Palm Beach cause using condemnation proceedings if necessary, was authorized Monday by the County Commission.

Early this month, consulting about the matter, the Tallahassee, Commissioner C. Y. Byrd said the state had modified its original request for 125 feet of right of way for the Range Line Road, and now all felt it was money well spent since the group had profited from the trip.

John Glendell's registration was turned down by the state director. He was gone to St. Cloud to work on a newspaper. Dr. Buck, Dr. White, Dr. Elberry and J. A. Weiss of Belle Glade were visitors.

## Miss Jordan With Power Corp.

Miss Frances Jordan is now in St. Petersburg, Fla., where she was called last Monday by the Power Corp. She has been given a position, with them as Home Economist. It is now known, whether she will have work permanently in St. Petersburg or elsewhere in the State. The Company has extensive holdings. Miss Jordan, daughter of Rev. and Mrs. S. B. Jordan of Canal Point, will be greatly missed in our community.

## ATTEND WEDDING

Mr. and Mrs. Walter Hooker, with children Mary Elizabeth, Jean and Julian, and son and Mrs. John McNamee of Novoakville, Va., in the Church of the Brethren there, on June 25.

P. P. de Moya, another daughter, also of Chosen, will marry her parents in Nockeyville.

On Byrd's motion, seconded by Commissioner John Prince, Jake Boyd, engineer, and Henry Lillienbach, attorney, were authorized to seek a permit and acquisition of the 100-foot right of way—Lake Worth, Herald.

Mr. and Mrs. F. M. Shaughnessy, accompanied by their daughter, Jeanne, left Sunday for a visit with their son in Spring Hill, Fla.

Elisha Coleman has returned to the University of Florida where he will be employed this summer. He visited his parents Mr. and Mrs. E. E. Coleman of Pahokee.

## Fort Lauderdale Invites Of Glades For 4th Week End

### Elaborate Plans Being Made To Entertain Lake Region Folks

A group of five men from Fort Lauderdale were in the Lake Region yesterday evening, inviting people to this section to spend the Fourth of July week end in the Broward county city. A. G. Shandor, W. B. Gaynor, C. H. Davis, S. D. Dugan and D. T. French made up the party and called at many civic members and left publicly with them to be distributed during the next few days.

Palms and ferns placed in the center of the garden formed the backdrop for the white statuary which the young were taken when topped with a small quilted pillow.

While the guests were assembled, the champagne was served and the wedding music included "Romance" (McDonald) and "A Dream of Love" (Franz List).

Preceding the ceremony Mrs. Mary Granger sang "Love, That's All," and accompanied by J. D. Melton, Jr., Frank Aguirre, L. W. Weeks, Power and Fuel, H. L. Lapp, Labor and Personnel, V. C. (Continued from Page 3) to this publicity. The campaign is to be continued in the summer school.

Tallahassee, June 1.—Florida may admit the first negro to its state supported University of Florida at Gainesville, it was revealed here when the application to enter was received from President Peterson, a negro, for admission to summer school.

By law and a United States Supreme Court decision in a Missouri case, Attorney General George F. Clegg said, the university is entitled to admission to any state institution.

Peterson made application for admission to the summer school at the University where he is working toward a degree in business administration.

On the "practical side," the Attorney General said strict segregation would be accepted, with dormitory, dining hall and classroom space marked for negroes, separating them from the white students.

Watson pointed out that negroes are not yet admitted to the United States Military Academy at West Point and the United States Naval Academy at Annapolis.

Commenting on the problem, Watson said, "You may have to construct a 1 or 2-room dormitory and furnish it just like your other dormitories, but mark it for negroes. You may have to put up signs in the dormitory and mark it for negroes. You may have to put a sign in the class room segregating the two races, even in my opinion that may have to be made a continuous practice, and I know of no better time to have to handle such a situation than during the summer session."

Rollins College: A special publicity committee, organized by the Board of Control which operates the University, said Peter森 lived in Daytona Beach and that he had been accepted into the college there.

The case has not been decided by the Board of Control, and the educational qualifications of Peterson have not been investigated.

"There is every reason to believe that the efforts of the Committee on the State Defense Council Activities will directly account for the sale of bonds and stamps for the sale of bonds and stamps in the amount of \$20,000," said Dean Anderson, chairman of extra-curricular activities for the college.

Florida Institute of Technology: For the third year in a row, the college has an enrollment of only 38 students, a majority of whom are women. The college campaign was in progress, a second defense meeting was held with special speakers from the Orlando Air Base and from the Orange County Defense Council.

Bartow: The college department of the National Guard continues to conduct a series of patriotic programs that are unintentionally under-publicized as the reception centers. There a single individual is transplanting freedom from civilian life by experts in handling Uncle Sam's selective service recruitment system.

At Camp Blanding one of the nation's largest defense programs that are unintentionally under-publicized as the reception centers have passed the test and have been assigned to at least a hundred individual regiments.

St. Petersburg Junior College: Present percent of the faculty bought stamps or bonds and a large percentage of students purchased them. The total sales amounted to approximately \$1,400.

Florida Junior College: No report from this college due to the fact that it was in the act of closing its session when the campaign was organized.

Brief reports follow:

University of Florida: An extensive campaign was conducted and publicized by press and radio. A large number of faculty and students purchased either bonds or stamps or both. The campaign was conducted with enthusiasm and other publicity helped in the promotion of the sale of defense bonds and stamps.

Florida State College for Women: Extra-curricular activities were conducted by advancing money for the purchase of bonds and stamps for the actual sale should be conducted.
